

## Megabucks Gold tops latest performance figures<sup>1</sup>!

Sydney, November 11, 2016 - IGT and Maxgaming announce that the newly introduced Megabucks Gold statewide link jackpot has hit the market and is now one of the best performing games<sup>1</sup> according to Maxgaming's performance reports.

In the latest report, Megabucks Gold is performing at **1.79 x the denomination average<sup>1</sup>** across multiple venues at over **\$4,360 average daily turnover<sup>1</sup>**.

Importantly it's **now delivering twice the performance of the previous Megabucks product**, demonstrating the new product's strong player appeal with multi-games and multi-denominations.

IGT unveiled the new Megabucks link - Megabucks Gold - at this year's Australasian Gaming Expo in response to customer demand, with the new product offering four games with multiple denominations from 1c to \$1.

The total amount that has been won on the Megabucks link is now over \$12 million in first-level and second-level statewide linked jackpot prizes. It's worth noting that over \$7m has been won in the \$1,000+ Grandbucks jackpots which is the second level statewide linked jackpot - which generates excitement in venues while the huge Megabucks main jackpot builds.

Originally launched with Maxgaming in October 2014, IGT's Megabucks Gold statewide link has the industry's largest jackpot amount - which starts off at \$250k - with an expected jackpot prize average of approximately \$292k.

There are now over 100 clubs and 350 machines on the state-wide link across New South Wales, and the jackpot has been rapidly incrementing, reflecting the huge success of the Megabucks concept.
